Sylvan Li

Frontend Developer

(408)507-3453 | sylvanpalmli@gmail.com | San Jose, CA | linkedin.com/in/sylvanli-thedesigner | github.com/sylvan-li | sylvanli.com

SUMMARY

Highly motivated and detail-oriented Front-End Designer with a strong foundation in web development and design principles. Eager to leverage creativity and technical skills to create visually appealing and user-friendly interfaces. Proficient in HTML, CSS, and JavaScript, with a passion for staying updated with the latest industry trends and technologies. Committed to collaborating with clients and cross-functional teams to drive project success. Adept at translating client requirements into engaging digital experiences. Excited to contribute innovative design ideas and problem-solving abilities in a collaborative and dynamic working environment

TECHNICAL SKILLS

Proficient: *Node, Javascript, React / Redux, Git, Express*
Knowledgeable: *HTML5, Vue, Angular*

TECHNICAL PROJECTS

Omo Sushi | **UX Designer** | December/2022 | https://www.sylvanli.com/omo-sushi
- Redesigning a restaurant menu interface for the mobile market
- Utilized wireframing, prototyping, and mockups to design, test and implement designs
- used HTML, CSS, and Javascript to create an interface that allows users to view and order off the menu

PuppyPals | **BackEnd Designer**| Month/year | https://mellifluous-brigadeiros-d96346.netlify.app/
- Include a brief description explaining the problem you solved/are solving
- Showcase your technical expertise by listing key technologies used or core competencies demonstrated
- Recommend bullet point format to make it easier to read

PROJECTS

The Path | **Developer** | March 2022 | Github Repo
A digital implementation of the game Code Master. Players help an intrepid adventurer collect gems and reach an escape portal using programming concepts like conditionals, loops and step execution.
- Developed with the MEAN stack, Twitter Bootstrap, Material Angular, Karma, Mocha, and Chai
- Designed and implemented player profile page allowing users to see their progress and choose the next game level
- Set up authentication via local Email and password, Facebook and Google Oauth with Passport.js
